

1982 Atlas Van Lines

Engine Compartment Layout

LEFT ENGINE STRINGER

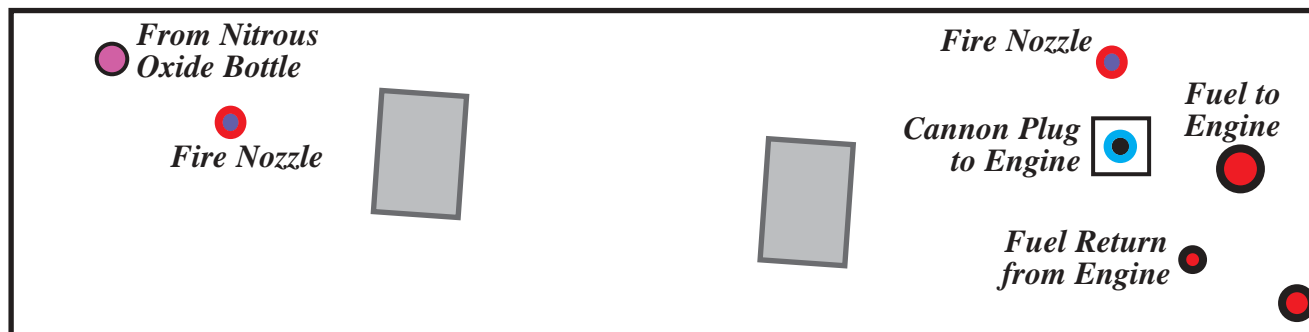

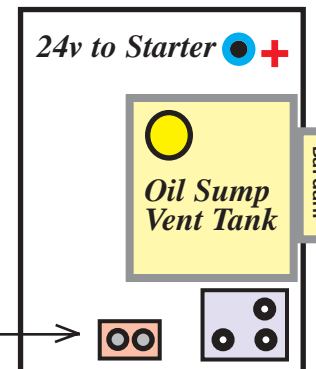

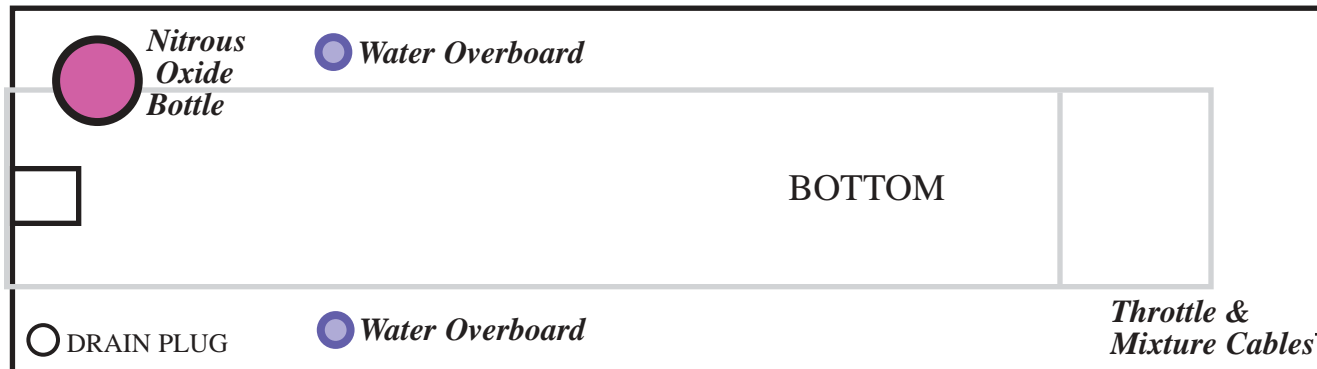

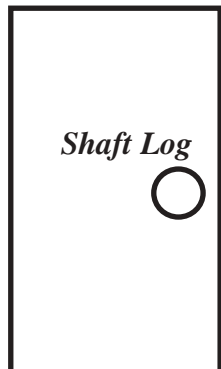

Vent from ADI Tank

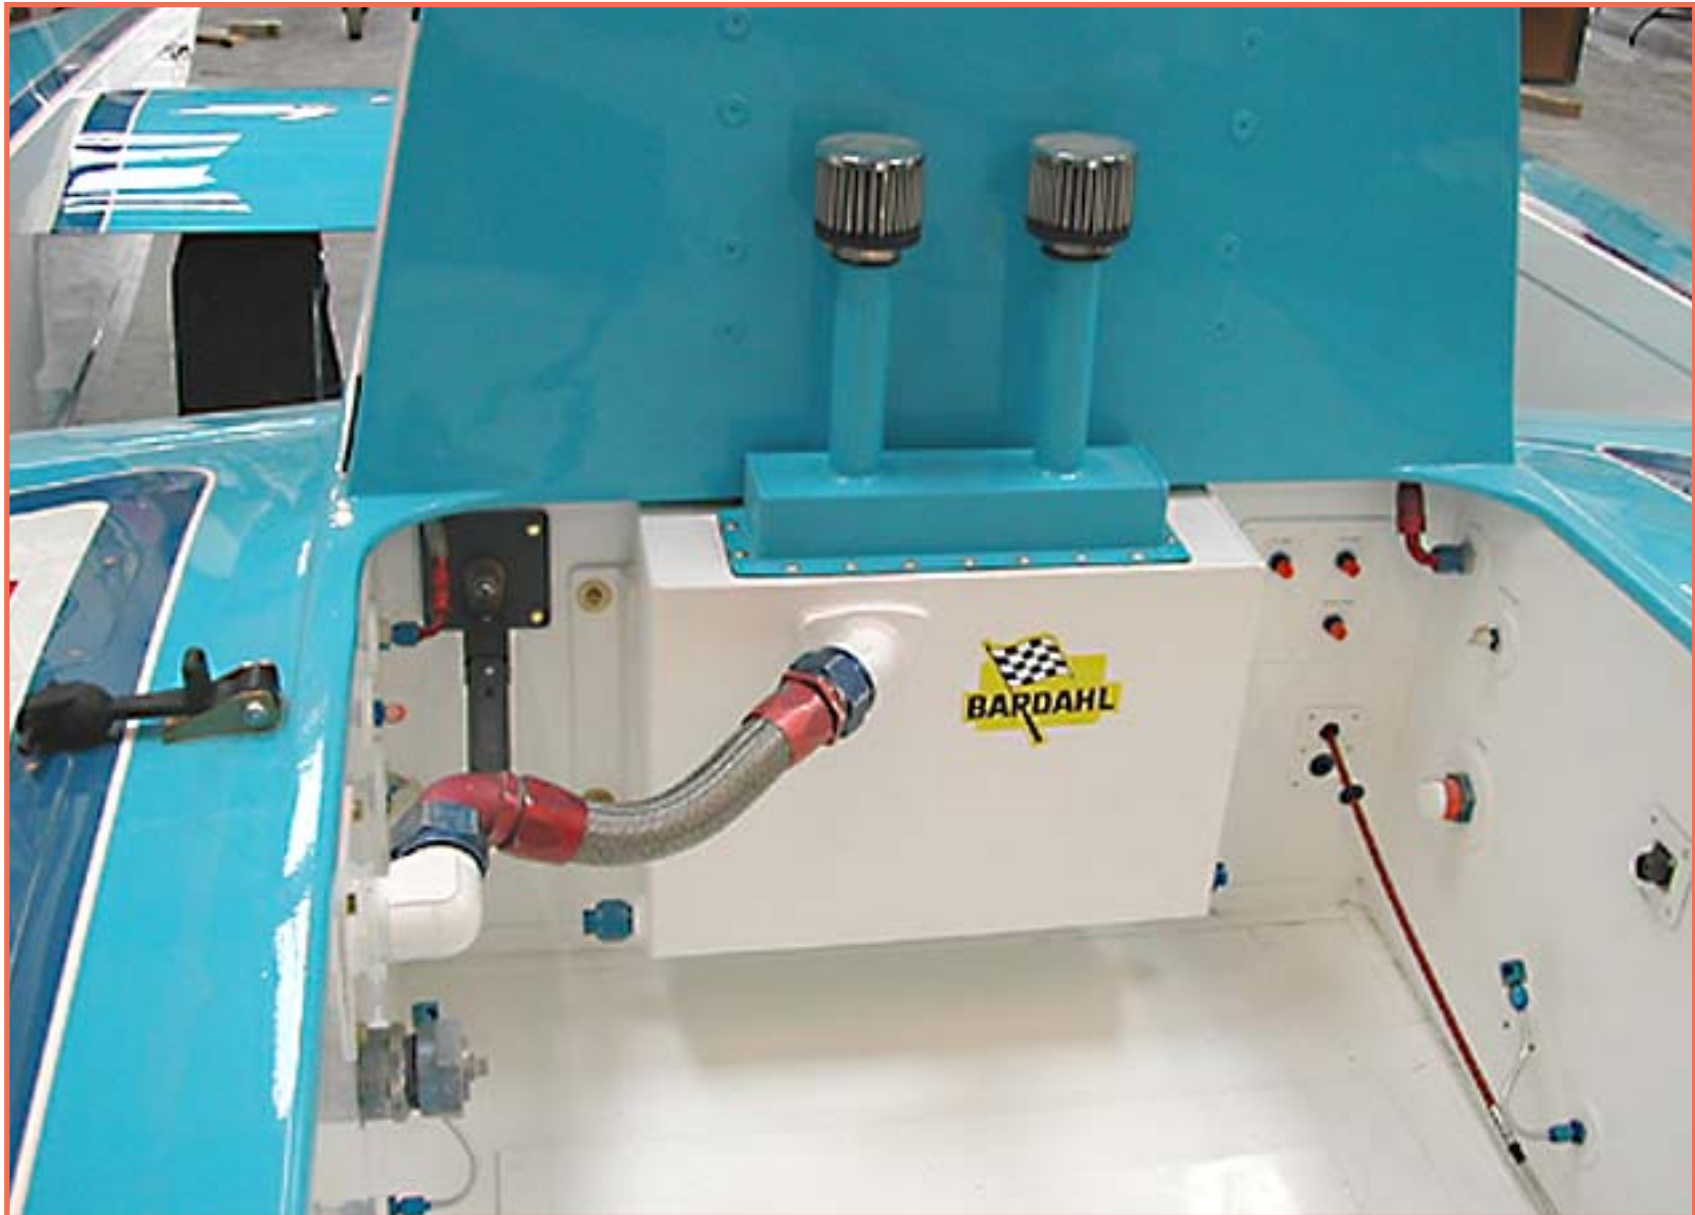

ADI To Engine

REAR BULKHEAD

FRONT BULKHEAD

RIGHT ENGINE STRINGER

The forward engine bay with bulkhead pressure fittings, throttle and mixture cables and the Ron Brown engineered oil sump/vent tank. The six-pin cannon plug and fuel fittings can also be seen to the far right.

Rear engine compartment view shows shaft-log and coupler. Atlas crewman Jeff Stubbers checks the nitrous bottle mount.
The two water overboard fittings in the bottom can be seen in the photo below.
